REMARKS

RETURN TO CIA LIBRARY

25X1

1. The former DANZIG-OLIVA, now WRZESZCZ (Q 55/Y 43) airfield, about eight kilometers square, had two concrete runways, each 80 feet wide, running parallel to the railroad line. The runways were crossed by another concrete runway extending from the Baltic Seashore to the field. The runways had a 20-inch broken stone layer topped by a 6-inch concrete cover.
2. Two hangars, one housing a repair shop, were in the field section opposite WRZESZCZ. There were cantonment buildings with a quartering capacity of 200 men at the field.
